InnoPak

I N C O R P O R A T E D

Packaging that works hard for you!

Inno-Pak specializes in creating *Matched Packaging* programs that help merchandise your food products. The Matched Packaging concept promotes your products by giving all of your packaging a consistent merchandising theme, design and color -- bright, attractive, user-friendly displays that have a clean, consistent look.

What's in a Design? The more your customers see your graphics and merchandising message, the more they remember your products. Our packaging promotes your products through graphics while helping to build repeat sales.
