Yarn Barn Moves To Virginia

The Yarn Barn officially relocated to Andersonville, Virginia as of February 1, 1998. (See [maps](#) for Virginia location.)

All Web site products will be shipped out of Virginia. We are continuing the renovation process on the 1700's building and will announce a grand opening when we can meet occupancy requirements (hopefully in September). I have arranged Web inventory in the large dining room and one truck load of yarn, etc. in another room of the house for anyone who is out cruising around and would like to come and take a peek at how we are progressing. Call 1-800-850-6008 or locally 983-1965 for an appointment if you want to make sure I'm here.

New For Fall

New products for fall have arrived including the new [Debbie Bliss](#) pattern book put out by Jaeger. I have added the Jaeger yarns to support this book. Several new yarns have been added by [Noro](#). I have also added Yarns from Berrocco and their new books, Colinette, Prism, [K1C2 Color wheel](#), complete line of Inox knitting needles, Addi 12" circular needles, Brittany wooden needles. I now carry Lambert Designs, Minnowknits as well as patterns and books from many other designers and companies. [Kirtland Woodworking](#) is providing me with completely adjustable woolly boards, vertical swifts, and cedar bobbins for storing with woolen sweaters. Yes Virginia, I have arrived!

If you are hunting for something not found on my site, send an e-mail and ask about the product. Maybe I have it, and can get it or help you locate.

Alice Starmore Yarns

The new book for September delivery is called "[Tudor Roses](#)". It will be available in a limited edition hard cover copy for \$32.95 and a soft cover version for \$23.95. I am accepting orders for both now, however if you want a hardcover copy don't wait too long to order.

A new yarn will be introduced in this book. Dunedin is a superfine luxury wool, spun from New Zealand top. 50 gm hanks and 170 yds. This sport weight yarn will knit 6-7 sts per inch. It will be introduced in 5 colors--ecru, black, dark green, mulberry, camel. \$7.25/ hank. I have it in stock now.

Color cards of all Starmore yarns are available for \$20 per set.

Dale of Norway

Dale has announced the [Norwegian Ski Team Sweater](#) for the 1999 World Championship Alpine Ski Events in Vail, Colorado. Start your sweater now and be wearing it as you watch these events on television!

Three new books have been added for fall. 101 is the long awaited children's book, sizes 2-14 years plus a Christmas stocking. This book features Falk yarn, a superwash sport weight yarn. I now have book at \$10.50 and yarn to support book in stock for immediate delivery. Book 100 and 104 are adults patterns featuring tiur and heilo yarns. I have kitted up many of the designs.

Debbie Bliss

Jaeger Handknits presents 12 exclusive designs for babies and toddlers from [Debbie Bliss](#). The yarns featured in this book are Matchmaker DK, Baby Merino, Pure Cotton dk and Merino Aran. I currently stock the Baby Merino and Pure Cotton dk.

Noro Yarns

Kureyon is 100% wool very similar to Kureopatora except it is in lighter brighter colors. There will be a children's leaflet available for this yarn. There are new colors of Kureopatora. I have rewritten an entralac vest pattern and tam pattern to utilize the uniqueness of these two yarns. Kogen is a 65% wool and 35% angora yarn. Cash Laine is a 80% wool, 20% cashmere yarn. All of these yarns will knit 4 1/2 to 5 sts per inch.

Oldies But Goodies

I have been asked to put [The Right Way to Knit, Book 1](#) and [The Right Way to Knit, Book 2](#) by Evelyn Stiles Stewart on my Web site. There are a limited number of these books available. In my opinion these are two of the best books ever written for knitters. Book 1 is a basic knitting manual and Book 2 is on finishing and blocking.

Thanks,

Pat Kirtland, Owner
